The picture is the Logotype of Technic Art Allander.

*The picture that is called **The Tool** shows a tool that mankind uses in order to create its existence.*

Thee tool consists of a heavenly blue handle, and above this there is a brain symbolizing men's creative capability. Then by utilizing the Resources of Nature, man builds up society and machines. Sun, Sea, tree, flowers, and other Natures symbols symbolize the Resources of Nature.

Based upon this, man uses his hands in order to create his existence. The tool is hardened in fire in order to get its proper strong capabilities.
